**Successful Kayaking Season Concludes**

The 2019 SOHO Kayak team participated in its inaugural State Games on August 24th. The team of five athletes - Peter Byun, Karin McGinnis, Dominic Na, Matthew Na, Justin Saenz - began the competition season on August 10th at the Time Trials at Washington College in Chestertown, MD. All five athletes qualified for both the 100 meter and the 200 meter races!

The team returned to Washington College on the 24th to compete in SOMD State Games. With excellent weather but a nasty off-shore current, pulling everyone to the left so overcompensating and constant correction was the mantra of the day. All the athletes handled it beautifully, worked hard, and brought home nine medals!

circumstances that could affect how first responders react in an emergency situation.

For example, if someone living with autism has sensory sensitivity, an officer could be mindful of the possible effects of police lights or sirens when approaching that household.

The program was established in 2012 through a partnership between the department and the Howard County Autism Society to help alert first responders if someone at an address had autism or a similar disability.

Now in the program’s expanded form, families can also flag their home if a person has Alzheimer’s; physical, intellectual, developmental or degenerative disabilities; mental health diagnoses; or other behaviors that could affect an emergency response.

All information submitted as part of the 911 flagging program remains confidential and will only be used by emergency dispatchers and responders.
