New Partnership for Winter Fitness Program

12 Labours CrossFit is partnering with Special Olympics Howard County (SOHO) to provide CrossFit classes during the upcoming Winter season. CrossFit classes at 12 Labours will be offered to 15 eligible athletes during a 12-week period starting in January 2020. The program will be held on Tuesday and Thursday nights from 7:30 - 8:30 p.m. There will be an orientation on Thursday, January 2nd and the program will begin on Tuesday, January 7th and end on Thursday, March 26th. The 12 Labours Team is also committed to providing fundraising events throughout the year to continue this new partnership.

"We are extremely proud to partner with SOHO and give back to our community," said Wilson Pak, General Manager of 12 Labours CrossFit. "We have built a coaching staff and supportive network of members that will positively impact children and adults alike through functional fitness." Both organizations have been working closely with one another to provide CrossFit classes for all ability levels. The goal is to provide additional CrossFit classes outside of the winter season.

"We are looking forward to this exciting new partnership with 12 Labours CrossFit which will prepare our athletes to compete in our sports programs at their highest levels. Thank you to Wilson Pak and the 12 Labours leadership team for providing this awesome fitness opportunity to our Special Olympians!" stated Bob Baker, SOHO Director.

CrossFit classes at 12 Labours will incorporate aerobic exercise, bodyweight movements, and barbell movements. The goal of the strength and conditioning program is to improve the overall fitness of each athlete while developing the skills to improve the demands of everyday life. Safe modifications can be made for any movement to still be challenging. Each session will consist of a warm-up, strength or skill focused movement, and a WOD (workout of the day) in a group atmosphere. Exercise equipment include rowers, bikes, dumbbells,
kettlebells, medicine balls, barbells, etc. Photo: 12 Labours CrossFit Manager, Wilson Pak, and SOHO Director Bob Baker.

SOCCER PLAYER DEVELOPMENT

its voluntary 911 flagging program, which allows households to "flag" their address in the county's 911 database if a person living in the home has a disability. Families can note if someone in the home may have special needs or circumstances that could affect how first responders react in an emergency situation.

For example, if someone living with autism has sensory sensitivity, an officer could be mindful of the possible effects of police lights or sirens when approaching that household.

All information submitted as part of the 911 flagging program remains confidential and will only be used by emergency dispatchers and responders.

VOLLEYBALL:

The Howard Hawks had a great showing at Special Olympics Delaware Fall Festival held at St. Andrew's School in Middletown, Delaware, on Saturday, October 27th. The Sky Hawks (Coach Hillary) and Net Hawks (Coach Mary) took home the Gold in their divisions. Coach Gary Carter's Ball Hawks (who played in the Unified Division as a Traditional Team) and Coach Michael Saltzman's Floor Hawks earned Silver Medals.

The real highlight of the day was when our coordinator, Russ Young, was approached by a Delaware State Games volunteer from Chase Bank, one of the event's sponsors. He told Russ that he has been a volunteer at the Fall Festival for many years, and he felt that he just had to tell someone from our delegation how impressed he was with the Howard County athletes. He told Russ: "Your athletes are always so cordial, friendly, and enthusiastic. They're just a wonderful group."

Great job, Howard Hawks, representing SOHO!

Worley Brothers Compete in Australia

Mark and Bruce Worley competed in the International Sports Federation for Persons with Intellectual Disability (INAS) Global Games, a week-long international competition in Brisbane, Australia. They represented the U.S. in the sports of "crewing" on the water and indoor rowing on "ergs". (Erging is rowing on a rowing machine. It's called erging because a rowing machine is officially called a "rowing ergometer," but rowers shortened the name to "erg").
Mark and Bruce won a Bronze medal, rowing together in doubles on the water. Bruce won another Bronze crewing on the water with another U.S. athlete.

Alex Barnes Completes Arc Course

Alex Barnes, SOHO athlete and volunteer, recently completed The Arc Maryland's Partners in Policymaking. The goal of Partners in Policymaking® is to educate participants to be active partners with those who make policy. The idea is to develop partnerships that are based on positive and mutually beneficial relationships. In today's political climate of constant change, Partners graduates must work tirelessly to prevent the loss of basic rights for people with disabilities. Partners graduates can change the future by influencing public policy today and often become life long and long-term agents of change in the community.

Congratulations, Alex!
